SIZING INFORMATION

Use the sizing information on this page to determine proper fit of the clothing parts you wish to order. Whenever in doubt about a size, have someone else take your measurements, making sure the tape is straight and snug, but not tight. If measurements fall between two sizes, order the larger size.

How to Measure for Apparel Sizing

HATS: Measure around head, convert inches to hat size on chart below. Be sure to order by size indicated in catalog (see hat size chart below).

NECK: On a dress shirt that fits well, lay collar flat; measure from center of collar button to far end of button hole.

CHEST/BUST: Measure fullest part, keep tape up under arms and around shoulder blades.

WAIST: measure waist over shirt, not over slacks. Keep one finger between tape and body.

HIPS: Measure at fullest part.
